Birmingham, 26.04.2020

Dear Editors, dear reviewers

Thank you for the opportunity to submit a final revision of our manuscript entitled: "Large Riedel's Lobe and atrophic left liver in a Donor - Accept for transplant or call off?"

The specific template with the format and how to structure the case report as sent by the editor, was received very well. We have done anything possible to integrate the two cases separately and present them in the required structure, although this appears slightly more difficult for cases in transplantation, where donor and recipient information are considered. Please find enclosed the revised version of our manuscript. All authors of our manuscript have approved this second revision.

Thank you again for your kind support.

Kind regards

Andrea Schlegel

### **Comments from Editor and reply:**

Please provide the decomposable figure of Figures, whose parts are movable and editable. So you can put the original pictures in PPT and submit it in the system.

Please provide the decomposable figure of all the figures, whose parts are all movable and editable, organize them into a PowerPoint file, and submit as "Manuscript No. - image files.ppt" on the system. Make sure that the layers in the PPT file are fully editable. For figures, use distinct colors with comparable visibility and consider colorblind individuals by avoiding the use of red and green for contrast. Please read these four important guidelines carefully and modify your figure(s) accordingly: First, all submitted figures, including the text contained within the figures, must be editable. Please provide the text in your figure(s) in text boxes. Second, for line drawings that were automatically generated with software, please provide the labels/values of the ordinate and abscissa in text boxes. Third, please prepare and arrange the figures using

PowerPoint to ensure that all graphs or text portions can be reprocessed by the editor. Fourth, in consideration of color-blind readers, please avoid using red and green for contrast in vector graphics or images.

*Our reply:*

We thank the editor for those important suggestions and guidelines and have prepared this and uploaded this file to the system.
