#### **SPECIFIC COMMENTS TO AUTHORS**

It is a well-written and extremely objective paper. I think that this paper is a mini-review and not a review. At various points in the text, I feel like I'm reading a book chapter. So, I suggest that the authors work on this point. Some paragraphs with information from the literature have no reference.

#### **SPECIFIC COMMENTS TO AUTHORS**

This is a largely narrative review, most the content covered can be found in any medical reference or textbook. According to the journal homepage, the paramount objective of WJCC is to "showcase and promote distinguished research in the field of clinical medicine, to help advance development of this field." I am not sure how this manuscript fits the objective of the journal.
