Socioeconomic deprivation and barriers to live-donor ...

<https://bmjopen.bmj.com/content/6/3/e010605>

Mar 01, 2016 · Introduction. Live-donor kidney transplantation offers the best treatment in terms of life-expectancy and quality of life1–6 for most people with end-stage renal disease (ESRD). The possible long-term risks of live-donor nephrectomy are small,7–10 with evidence of good medium-term outcomes. The quality of life of most living kidney donors is at least equal to the general population, and ...
