

Point-to-point response to reviewer's comment:

Abstract OK

[Reply] Thanks.

Core Tip OK

[Reply] Thanks.

Background

1. Please clarify what 3D imaging mode refers to.

[Reply] Added.

2. What does "imaging dose" mean? Please clarify.

[Reply] Added.

3. What does "image speed" mean? Please clarify.

[Reply] Corrected. It should be "imaging speed".

Advances

1. "Low dose" is quite obscure. What dose? Contrast medium or radiation dose? Please clarify.

[Reply] Added. The low dose here means the low radiation dose.

2. Please cite some clinical studies using AI reconstruction techniques, such as True Fidelity (GE) and AiCE (Canon), etc.

[Reply] Added.

Outlook OK

[Reply] Thanks.
