Clinical recommendations on lung cancer ... 翻译此页

Cited by: 1

Author: Yan Xu, Hongsheng Liu, Ke Hu, Mengzha...

Publish Year: 2020

Coronavirus disease 2019 (COVID-19) is spreading worldwide, and has been declared as an international public health concern. Patients with lung cancer are highly susceptible to infection compared to healthy individuals because of systemic immunosuppression induced by malignancy and anticancer therapy.

Practice recommendations for lung cancer ... 翻译此页

Cited by: 15

Author: Matthias Guckenberger, Claus Belka, And...

Publish Year: 2020

After the outbreak of the coronavirus SARS-CoV-2 (COVID-19) in Wuhan, China, in December 2019, the disease rapidly became a global pandemic. Infection rates peaked and began to decline in some Asian countries by March 2020, but Europe and the US are now among the most affected regions. Most COVID-19 infections are characterized by only mild symptoms of fever and cough; however, there is a ...
