Responds to the Reviewer Comments:

1. Response to major comments (Reviewer #1): "First of all, I would like to thank the author for drawing attention to an important issue still confused by our colleagues who could not update themselves in radiology practice. With the new update, the author has clarified the issue with appropriate figures by focusing on the problems that may arise about this topic in radiology practice. For this reason, the study is well-designed and the points and solutions that can lead to confusion are stated in the article at a sufficient level."

Response: Special thanks to you for your good comments. We agree with the reviewer's perspective.

****

To sum up, we tried our best to improve the manuscript and we had made corrections according to the reviewers' comments and editorial comments. All of changes did not affect the content and framework of the paper. We appreciate for Editors' and

Reviewers' warm work earnestly, and we hope that the corrections will meet with approval.

Once again, thank you very much for editorial and reviewer's comments and suggestions.

Yours

Sincerely,

Xiao Bo
