### *Case Control Study*

**LncRNA C9orf139 can regulate the growth of pancreatic cancer by mediating the miR-663a/Sox12 axis**

Jin-Nian Ge, Di Yan, Chun-Lin Ge, Min-Jie Wei

### **Abstract**

#### **BACKGROUND**

Recent studies have proved the important role of many carcinogenic long non-coding RNAs (lncRNAs) in the progression of pancreatic cancer, but little is known about the mechanisms of tumor suppression in pancreatic cancer.

#### **AIM**

To evaluate the function of tumor suppressor lncRNA C9orf139 in pancreatic cancer progression and to study the underlying mechanism.

#### **METHODS**

### Match Overview
