Subject- Permission for the collection of data for the EverPro retrospective study of patient who are implanted with Neohexa stent from 1Jun 2018to 31 Jan 2019 those completed the one year follow.

Study Title- "To determine safety and performance of Everpro Everolimus-Eluting Coronary Stent System (EES) in all-comer patients with coronary artery disease (CAD) in routine clinical practice

Dear Sir,

I have planned to conduct the retrospective investigator initiated clinical study of EverPro stent called EverPro registry. For the EverPro registry need your permission for the collection of data of the patient who are implanted with EverPro stent from 1 Jun 2015 to 31 Jan 2019 and one year routinefollow. Patient who signed Hospital consent form. Kindly give the permission to collect data of patient from the Hospital medical Record.

Regards
