(1) *Science Editor*: 1 Scientific quality: The manuscript describes a case control study of intraoperative thromboelastography as a tool to predict postoperative thrombosis during liver transplantation. The topic is within the scope of the WJT. (1) Classification: Grade B and B; (2) Summary of the Peer-Review Report: It is a well designed study. It was very stimulating with its results. (3) Format: There are 5 tables. A total of 29 references are cited, with 7 references published in the last 3 years. There are no self-citations. 2 Language evaluation: Classification: Grade A and B. A language editing certificate by AJE was provided. 3 Academic norms and rules: The Conflict-of-Interest Disclosure Form should be provided by the corresponding author. Copyright License Agreement was provided. Signed Informed Consent Form(s) or Document(s) and Biostatistics Review Certificate were uploaded. The STROBE Statement was uploaded. No academic misconduct was found in the Bing search and the highest similar index is 7% in the CrossCheck detection, the repeated sentences should be rephrased. 4 Supplementary comments: This is an invited manuscript. Without financial support. The topic has not previously been published in the WJT. 5 Issues raised: (1) Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. Please revise throughout. (2) Please add "article highlight" section. 6 Re-Review: Not required. 7 Recommendation: Conditional acceptance.

A) The Conflict-of-Interest Disclosure Form should be provided by the corresponding author.

We have provided the correct Conflict of Interest Disclosure Form

B) No academic misconduct was found in the Bing search and the highest similar index is 7% in the CrossCheck detection, the repeated sentences should be rephrased.

I checked the cross check detection report again. There are no whole plagiarized sentences, but only small parts of sentences

- C) Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. Please revise throughout.

Thankyou for the observation, we have done it.

- D) Please add “article highlight” section

Thankyou for the observation, we have done it.

- (2) *Editorial Office Director:* I have checked the comments written by the science editor.

The author should fill out each item of the STROBE checklist with page numbers. The authors need to provide original Institutional Review Board Approval form. The author should number the references in Arabic numerals according to the citation order in the text. The reference numbers will be superscripted in square brackets at the end of the sentence with the citation content or after the cited author’s name, with no spaces.

- A) The author should fill out each item of the STROBE checklist with page numbers

Sorry, we have made the correction

- B) The authors need to provide original Institutional Review Board Approval form.

The uploaded Institutional Review Board Approval form is the original one. As you can notice, is an official and signed document.

- C) The author should number the references in Arabic numerals according to the citation order in the text. The reference numbers will be superscripted in square brackets at the end of the sentence with the citation content or after the cited author’s name, with no spaces

Sorry for the mistake, we have corrected it

- (3) *Company Editor-in-Chief:* I have reviewed the Peer-Review Report, the full text of the manuscript and the relevant ethics documents, all of which have met the basic publishing requirements, and the manuscript is conditionally accepted with major

revisions. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report and the Criteria for Manuscript Revision by Authors.

We have made the revision required
