**Title : Does proximal femoral nail antirotation achieve better outcome than previous-generation proximal femoral nail?**

This letter is to confirm that in my humble opinion the statistical methods and techniques mentioned in this study area appropriate for the research.

Please contact me if you have any queries.

Sincerely,

A handwritten signature in black ink, appearing to read 'Won-Kee Lee', with a long, sweeping flourish extending upwards and to the right.

July 17, 2019

Won-Kee Lee, Ph.D., Department of medical informatics, Kyungpook National University, 130, Dongdeok-ro, Jung-gu, Daegu, Republic of Korea
