

Reviewer #1:

Thank you for reviewing our manuscript and providing valuable comments.

1. In the revised manuscript we have changed the conclusion part of abstract in a way that briefly described the key genes functions. Please pay attention to review, thank you.
2. In the revised manuscript we have added a paragraph in introduction to illustrate the importance of cancer stem cells and their important genetic factors previously found. Please pay attention to review, thank you
3. We have divided Figure 1 into two figures, please pay attention to check, thank you.
