

Reviewers comments

Congratulations on good and inspiring work. It is pleasure to review high quality manuscripts. The authors have reviewed literature regarding treatment strategies for metastatic hormone-sensitive prostate cancer. I appreciate their efforts, which may aid in clinical decision-making. In conclusion, manuscript is acceptable for publication.

Response to reviewers and editor comments

We sincerely thank the reviewers for very constructive and encouraging comments, and for acknowledging the quality of our article. In addition, we have addressed the comments and notes of the editor in the edited manuscript file, and modified our manuscript accordingly.
