1. Chief complaints: please clarify that woman was refer from a local community hospital to the emergency department of author's hospital?
please put the name of the author's hospital in.

According to your request, we put the name of the author's hospital .

2. Time of admission in physical examination (17:47 13/05/2020) and in procedure for anesthesia, cesarean delivery, and aortic dissection (19:11) should be present in another way; for example, 1.30 hours after landing to the emergency department, cesarean section was operated...

According to your request, We revised the description of the time point.

3. Physical examination part needs some english polishing; on arrival, the patient had without cough..... should be correct to no respiratory symptoms or no history of contact case with COVID-19.

According to your request, We revised the description of respiratory symptoms or history.
