SPECIFIC COMMENTS TO AUTHORS

Thank you for the opportunity to review this case report. This is the emergency case in COVID-19 era that finally, the medical team could provide the in time with the excellent management. I have few comment as follow; 1. Chief complaints: please clarify that woman was refer from a local community hospital to the emergency department of author's hospital? please put the name of the author's hospital in. 2. Time of admission in physical examination (17:47 13/05/2020) and in procedure for anesthesia, cesarean delivery, and aortic dissection (19:11) should be present in another way; for example, 1.30 hours after landing to the emergency department, cesarean section was operated...

3. Physical examination part needs some enligh polishing; on arrival, the patient had without cough..... should be correct to no respiratory symptoms or no history of contact case with COVID-19.
