Dear Editor,

We would like to thank the Editorial Board and the expert reviewer for constructive suggestions and insightful comments to improve the quality of our manuscript.

In light of the comments for authors, the manuscript has been revised as follows:

Comments for Authors

The author must revise the manuscript according to the Editorial Office's comments and suggestions, which listed below:

SCIENTIFIC QUALITY

Please resolve all issues in the manuscript based on the peer review report and make a point-by-point response to the issues raised in the peer review report. Authors must resolve all issues in the manuscript that are raised in the peer-review report(s) and make point-by-point responses to the issues raised in the peer-review report(s), which are listed below:

Reviewer
Scientific **Quality:** Grade B (Very good) #1:
Language **Quality:** Grade C (A great deal of language polishing)
Conclusion: Minor revision
Specific Comments to Authors: The authors have done an extensive review on the topic stereotactic irradiation for pediatric glial neoplasms. The article is fairly well written. English in the whole manuscript needs one more look by an English editor for grammar and syntax.

LANGUAGE QUALITY

Please resolve all language issues in the manuscript based on the peer review report. Please be sure to have a native-English speaker edit the manuscript for grammar, sentence structure, word usage, spelling, capitalization, punctuation, format, and general readability, so that the manuscript's language will meet our direct publishing needs.

EDITORIAL OFFICE'S COMMENTS

Authors must revise the manuscript according to the Editorial Office's comments and suggestions, which are listed below:

(1) Science editor: 1 Scientific quality: The manuscript describes a Review of the stereotactic irradiation for pediatric glial neoplasms. The topic is within the scope of the WJN. (1) Classification: Grade B; (2) Summary of the Peer-Review Report: The article is fairly well written. English in the whole manuscript needs one more look by an English editor for grammar and syntax. The questions raised by the reviewers should be answered; (3) Format: There is 1 table; (4) References: A total of 100 references are cited, including 19 references published in the last 3

years; (5) Self-cited references: There are 12 self-cited references. The self-referencing rates should be less than 10%. Please keep the reasonable self-citations (i.e. those that are most closely related to the topic of the manuscript) and remove all other improper self-citations. If the authors fail to address the critical issue of self-citation, the editing process of this manuscript will be terminated; and (6) References recommendations (kindly remind): The authors have the right to refuse to cite improper references recommended by the peer reviewer(s), especially references published by the peer reviewer(s) him/herself (themselves). If the authors find the peer reviewer(s) request for the authors to cite improper references published by him/herself (themselves), please send the peer reviewer's ID number to editorialoffice@wjgnet.com. The Editorial Office will close and remove the peer reviewer from the F6Publishing system immediately. 2 Language evaluation: Classification: Grade C. The manuscript is reviewed by a native English speaker. 3 Academic norms and rules: No academic misconduct was found in the Bing search. 4 Supplementary comments: This is an invited manuscript. No financial support was obtained for the study. The topic has not previously been published in the WJN. 5 Issues raised: The language classification is Grade C. Please visit the following website for the professional English language editing companies we recommend: <https://www.wjgnet.com/bpg/gerinfo/240>. 6 Recommendation: Conditional acceptance.

(2) Editorial office director:

(3) Company editor-in-chief: I have reviewed the Peer-Review Report, the full text of the manuscript, and the relevant ethics documents, all of which have met the basic publishing requirements of the World Journal of Methodology, and the manuscript is conditionally accepted. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report, Editorial Office's comments and the Criteria for Manuscript Revision by Authors. However, the quality of the English language of the manuscript does not meet the requirements of the journal. Before final acceptance, the author(s) must provide the English Language Certificate issued by a professional English language editing company. Please visit the following website for the professional English language editing companies we recommend: <https://www.wjgnet.com/bpg/gerinfo/240>. Language Quality: Grade C (A great deal of language polishing).

Relevant Modifications

We, all authors, feel obliged to acknowledge our debt of gratitude for insightful comments and excellent handling of our manuscript. In light of the comments for authors, we have now reduced the number of self-cited references to include only 5 self-citations which are most closely relevant. (self-cited references were significantly reduced as compared to 12 self-cited references at

initial submission, compliant with a self-referencing rate less than 10% in this current revised version of the manuscript)

Reviewer:

The authors have done an extensive review on the topic stereotactic irradiation for pediatric glial neoplasms. The article is fairly well written. English in the whole manuscript needs one more look by an English editor for grammar and syntax.

Also, the whole manuscript has been thoroughly checked for grammatical errors, syntax, and intellectual content by a professional English language editing company. Relevant modifications were performed throughout the manuscript to avoid grammatical, semantical/stylistic and typographical errors.

A formal English Language Editing Certificate issued by a professional English language editing company is now provided as

Finally, we, all authors, acknowledge our debt of gratitude to the distinguished Editorial Board and the expert peer-reviewer who contributed greatly to the improvement of the quality of our manuscript to reach a considerable level of publication in the esteemed “World Journal of Methodology”.

Thanking you and the expert reviewer again for the meticulous review process and excellent handling of our manuscript,

We remain with our Kindest Regards

Omer Sager, MD, Associate Professor, Radiation Oncologist, Department of Radiation Oncology, University of Health Sciences, Gulhane Medical Faculty, Department of Radiation Oncology, Gulhane Medical Faculty, University of Health Sciences, Gn.Tevfik Saglam Cad., Etlik, 06018, Kecioren, Ankara, Turkey
