To Whom It May Concern:

Title of the study: PERIOPERATIVE RISK FACTORS ASSOCIATED WITH DELAYED GRAFT FUNCTION  
FOLLOWING DECEASED DONOR KIDNEY TRANSPLANTATION: A RETROSPECTIVE, SINGLE CENTER STUDY

This letter is to confirm that I have read the article, and, in my opinion, the statistical method and techniques mentioned are appropriate for the research.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bobby Nossaman". The signature is fluid and cursive, with a large initial "B" and "N".

For any question please contact me.

Bobby Nossaman, MD

Ochsner Medical Center
