

Reviewer #1: 1. "But" is not professional to be used in front of the sentences.

This sentence has been corrected

2. Perspectives from author for Future studies should be provided. Such perspectives have been add at the end of the manuscript

3. Manuscript needs to be re-written to be more formal. Re-writing and formalisation have been made.

4. Encourage to include 1 figure or 1 table to summarize or propose future idea/studies. Very sorry, but really no figure/table to propose.

Reviewer #2: this submitted editorial asks a very timely and important ethical question for the medical team in procuring organ from brain-death patient for transplant to consider. It is a good suggestion that some kind of analgesic measure be applied in process of procurement.

Thanks for these positive comments.

Reviewer #3: Interesting topic and good comments on the topic.

Thanks for these positive comments.
