SPECIFIC COMMENTS TO AUTHORS

Garcia-Gonzales et al., wrote a very important review on the topic of the new challenge of the use new technologies to prevent and treat diseases. These technologies belonging to the Personalized medicine were well described but briefly by the authors. Authors planned the review to 3 types of technologies, the gene therapy, the cell therapy and the tissue-engineered medicine. They give concise examples for each technology.

We thank the reviewer for his/her comments.

SCIENCE EDITOR COMMENTS

1 Scientific quality: The manuscript describes a review of the new era of personalized medicine. The topic is within the scope of the WJI. (1) Classification: Two Grades B; (2) Summary of the Peer-Review Report: This is a very important review on the topic of the new challenge of the use new technologies to prevent and treat diseases. These technologies belonging to the Personalized medicine were well described but briefly by the authors. Authors planned the review to 3 types of technologies, the gene therapy, the cell therapy and the tissue-engineered medicine. They give concise examples for each technology; and (3) Format: There is 1 table. A total of 50 references are cited, including 26 references published in the last 3 years. There are no self-citations. 2 Language evaluation: Classification: Grade A and Grade B. No language editing certificate was provided. 3 Academic norms and rules: No academic misconduct was found in the Bing

search. 4 Supplementary comments: This is an unsolicited manuscript. No financial support was obtained for the study. The topic has not previously been published in the WJI. 5 Issues raised: (1) The “Author Contributions” section is missing. Please provide the author contributions; (2) PMID numbers are missing in the reference list. Please provide the PubMed numbers to the reference list and list all authors of the references. Please revise throughout; and (3) Authors should always cite references that are relevant to their study. Please check and remove any references that not relevant to this study. 6 Recommendation: Conditional acceptance

et al., wrote a very important review on the topic of the new challenge of the use new technologies to prevent and treat diseases. Theses technologies belonging to the Personalized medicine.

We thank the science editor for his/her comments. We have added an “Author Contributions” statement explaining the contributions of each author. We have also checked all the references and added the PMID number in all the references.

Company editor-in-chief:

I have reviewed the Peer-Review Report, the full text of the manuscript, and the relevant ethics documents, all of which have met the basic publishing requirements of the World Journal of Immunology, and the manuscript is conditionally accepted. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report, Editorial Office’s comments and the Criteria for Manuscript Revision by Authors. Before final acceptance, the author(s) must add a table/figure to the manuscript.
