Dear Shamir,

I think this is an interesting study and I have no objections to this audit.

Kindly liaise with Head of Department of Radiology for any additional help you may need.

Best regards,

Dr Shaheeba Barrow

**Subject:** CT Scan Variations of Liver and Pancreatic Anatomy: Approval to Carry out an audit

Dr Shaheeba Barrow

Medical Director

Port of Spain General Hospital

Hello Dr. Barrow,

I hope you are well.

I am seeking approval to carry out an audit of CT scans at the Port of Spain General Hospital. We wish to retrospectively examine DICOM images from CT scan database in order to detect the presence of variations in anatomy in this population.

We do not intend to interview any patients or access any clinical, demographic or personal data. The study material would be DICOM images only.

In this regard, we are seeking approval to perform this audit.

Best regards  
Shamir Cawich
