Dear Prof Eberlein,

I am in the process of writing a manuscript entitled "Variations of Venous Drainage of the Left Liver".

In my literature research, I have found a very instructive article published in *Surgery, Gynecology & Obstetrics*, now known as the *Journal of the American College of Surgeons (JACS)*, as listed below:

Nakamura S, Tsuzuki T. Surgical Anatomy of the Hepatic Veins and the Inferior Vena Cava. *Surg Gynecol Obstet.* 1981;152:43-50.

I am seeking permission to reproduce the illustration of hepatic vein variants proposed by the authors, with appropriate citations, in my manuscript. I have attached a formal letter with my request.

I hope that the editorial board of the JACS will view my proposal favourably.

Best regards
Shamir Cawich
