Dear Sir,

Thank you for constructive remarks and instruction by esteem reviewer.

The manuscript was edited, grammar correction, and typesetting, and reformulated to reach a high-quality text. Editing was done by native-English speaker, and me who is trilingual(English/German/Arabic), we believe that we did the best to reach an excellent quality.

We don't believe an editing company will add to the quality of the work.

Thank you and best regards.

Prof. Dr. med. Mohamed Wishahi
