[Ultra-Brief Crisis IPT-A Based Intervention for Suicidal ...](#)<https://pubmed.ncbi.nlm.nih.gov/33362595>

Ultra-Brief Crisis IPT-A Based Intervention for Suicidal Children and Adolescents (IPT-A-SCI) Pilot Study Results. In recent years, suicidal behaviors have shown substantial increase worldwide. This trend is also prominent in Israel and has led to a dramatic increase in mental health treatment demand resulting in long wait times and low treatment acceptance rate.

[Ultra-Brief Crisis IPT-A Based Intervention for Suicidal ...](#)<https://www.frontiersin.org/articles/10.3389/fpsy.2020.553422> ▾< on Methods Results **Discussion** Data Availability Statement >

In this brief report, we have described a new adaptation of an acute ultra-brief crisis intervention for children and adolescents at **suicidal risk**, developed in our depression and suicide clinic at SCMC, and reviewed its theoretical foundations. It seems that the intervention is feasible and safe. The intervention group was superior to wait list group in reducing suicide ideation. The intervention, however, did not differ from the two comparison groups in reducing symptoms of depression. The difference in outcomes for th...
