

Date: 30<sup>th</sup> of July of 2021  
Subject: Manuscript Submission  
To the Editor-in-Chief

Dear World Journal of Orthopaedics,

It is with pleasure that we submit our manuscript entitled "*Clinical Efficacy of the Ankle Spacer for the Treatment of Multiple Secondary Osteochondral Lesions of the Talus*" for your consideration.

I can state through this statement that Jari Dahmen and the team are native speakers. Jari Dahmen has finished a bachelor's degree at the Amsterdam University College, which is an American-inspired University college that solely offers education in the English language and requires a C2-proof of English

Sincerely on behalf of the Amsterdam group and warm regards,

Yours sincerely,

The image shows two handwritten signatures in purple ink. The first signature on the left is 'J. Dahmen' and the second signature on the right is 'G.M.J. Kerkhoffs'.
