SPECIFIC COMMENTS TO AUTHORS

The manuscript submitted by authors is interesting. However the showcasing of the data needs clarity in the manuscript. Following are the suggestions for the authors to improvise the manuscript. 1. The abstract should discuss or highlight the critical outcomes of the study. 2. 5 keywords to be suggested. Do not write short forms in the keywords and headings 3. The authors need to specify the search strategy adopted and timeline of the literature review carried out. The data included of the articles considered years from and to should be mentioned. 4. The authors should mention a section on future scope and perspectives 5. The authors can include the details of the previous studies in tabular form which will help readers to easily identify the outcomes. 6. Kindly ensure if full form of the abbreviated words are atleast presented once for first time in the manuscript.
