Title: Complex fractures of the distal femur in patients over the age of 85 treated with megaprosthesis: surgical treatment and results in a case series of eleven patients

Authors List: Fabio Zanchini MD, Antonio Piscopo MD, PhD, Valerio Cipolloni MD, Federico Fusini MD, Stefano Cacciapuoti MD, Davide Piscopo MD, Charlotte Pripp MD, Luigi Aurelio Nasto MD, PhD, Enrico Pola MD, PhD

Dear Editor,

This is to certify that signature of a consent form for the study was waived by our Institutional Review Board for the current study because of its retrospective nature and part of our service evaluation assessment.

Yours sincerely,

Enrico Pola, MD, PhD
