### SPECIFIC COMMENTS TO AUTHORS

Suggestions: 1. This paper is a very good minireview, it provides a reference for the vaccination of the clinical GIST patients in the new coronal period. 2. In this minireview, the authors mentioned several common coronavirus vaccines, including mRNA vaccine、adenoviral vector vaccine、CoronaVac vaccine、BBIBP-CorV vaccine and etc, are there any recommended types of coronavirus vaccine for GIST patients in the current guidelines? 3. The diagnosis and treatment progress and pathological characteristics of GIST need to be further refined.
