-------------------------------------	---

SPECIFIC COMMENTS TO AUTHORS

1) As causes of Immunosuppression in mucormycosis were included in the study. No comparison of data in Covid and Noncovid patients with mucormycosis. 2) Number of patients were too less for statistical Analysis. 3) Discussion was not written properly.

SPECIFIC COMMENTS TO AUTHORS

Your manuscript is well established and properly written yet what might increase its visibility is adding some illustrated imaging reflecting what you are describing in imaging findings

SPECIFIC COMMENTS TO AUTHORS

Authors aim to review the various imaging findings of mucormycosis on computed tomography (CT) and magnetic resonance imaging (MRI). While some concerns should be addressed as following, 1. The flow chart of the article would present the main idea and structure; hence it can be presented as a frame. 2. Some figures about CT or MRI should be provided.
