### **SPECIFIC COMMENTS TO AUTHORS**

I have reviewed the manuscript keeping in mind that it is a correction and the review is limited to that because other information is already peer reviewed and published. I find no issues in the corrections made and the authors have correctly addressed the changes in manuscript as a result of changes in tables.

### **SPECIFIC COMMENTS TO AUTHORS**

As this is a correction to the published paper, only the parts that are different from the original published paper should be presented, not the full-length paper. The manuscript title should state that it is a correction. The manuscript type should be "Correction" instead of "Original Article". I don't have other comment to the corrected/added data, and supportive to its publication.
