

Editing Certificate

This document certifies that the Abstract of the manuscript listed below has been edited to ensure language and grammar accuracy and is error free in these aspects. The logical presentation of ideas and the structure of the Abstract were also checked during the editing process. The edit was performed by professional editors at Editage, a division of Cactus Communications. The sections titled references, figures, tables, figure-legends and tables-legends were not edited by Editage upon the author's request.

The author's core research ideas were not altered during the editing process. Editage guarantees the quality of editing with the assumption that our suggested changes have been accepted and the edited text has not been altered without the knowledge of our editors.

MANUSCRIPT TITLE

IFN- γ and TNF- α synergistically enhance the immunosuppressive capacity of hUC-MSCs by increasing PD-L1 expression
