https://www.wjgnet.com

selecting the World Journal of Hepatology under Baishideng Publishing Group(BPG) to submit the manuscript. We have received your revised manuscript (Role of microrna-regulated cancer stem cells in recurrent hepatocellular carcinoma) (NO.:79756). However, in checking the manuscript, we have found that there is inconformity with the format and technical requirement. 1 Figures Please provide the Figures cited in the original manuscript in the form of PPT. All text can be edited, including A,B, arrows, etc.All legends are incorrectly formatted and require a general title and explanation for each figure. Such as Figure 1 title. A: ; B: ; C: . 2 Provide new language certificate After our verification, we found that the language editing company mentioned in your submitted language certificate only polished the initial manuscript. Following the many changes that were introduced into the content of your manuscript during the revision process, some language problems exist in the revised manuscript. Further language polishing is required to fix all grammatical, syntactical, formatting and other related errors, in order to meet the publication requirement (Grade A). Please modify on the basis of the attached manuscript. Now, you are requested to send the revised manuscript to a professional English language editing company or a native English-speaking expert to polish the language further. When you submit the subsequent polished manuscript to us, you must provide a new language certificate alongwith it. Once this step is completed, your manuscript will be quickly accepted

Baishideng Publishing

and published online. Please visit the following website for the professional English language editing companies we recommend: https://www.wignet.com/bpg/gerinfo/240.

Copyright-License-Agreement We note that authors (Chen Xun and ChunHong Yu) did not sign an online copyright agreement. We have sent email to you. Please note that check them and sign an online copyright agreement. 4 In addition, I noticed that your Ref. is not formatted correctly. Ref. do not need Spaces. Please revise carefully. Please provide and send them to us as soon as possible. You can compress your files into ZIP or RAR versions and upload them to the system. You also can send them to Geng-Long Liu via e-mail at: g.l.liu@wjgnet.com. If you have any questions, please timely contact us. With the support of all the authors, we sincerely hope that the manuscript can be timely revised in high quality. Sincerely

Company Editor-in-Chief: I recommend the manuscript to be published in the World Journal of Hepatology. Before final acceptance, the author(s) must provide the English Language Certificate issued by a professional English language editing company. Please visit the following website for the professional English language editing companies recommend: https://www.wjgnet.com/bpg/gerinfo/240. Before acceptance, when revising the manuscript, the author must supplement and improve the highlights of the latest cutting-edge research results, thereby further improving the content of the

manuscript. To this end, authors are advised to apply a new tool, the Reference Citation Analysis (RCA). RCA is an artificial
the Reference Citation Analysis (RCA). RCA is an artificial
intelligence technology-based open multidisciplinary citation
analysis database. In it, upon obtaining search results from the
keywords entered by the author, "Impact Index Per Article" under
"Ranked by" should be selected to find the latest highlight articles,
which can then be used to further improve an article under
preparation/peer-review/revision. Please visit our RCA database
for more information at:
https://www.referencecitationanalysis.com/.
The fixed headings are copied. [Y]
The title concisely summarizes the main topic of the study and is
not too long (no more than 18 words). Words such as 'exploration',
4 'research', 'analysis', 'observation', and 'investigation' are avoided. [Y]
The title does not start with 'The' and does not include any Arabic
numbers or uncommon abbreviations.
5 A short running title is provided (no more than 6 words). [Y]
The authors' full family (sur)names and full/abbreviated first
6 names are listed on the title page and are consistent with those [Y]
listed in the signed BPG Copyright License Agreement form.
The 'Author contributions' passage describes the specific
contribution(s) made by each author. The author's names are listed
in the following format: full family (sur)name followed by
abbreviated first and middles names.
7 e.g., "Wang CL and Liang L contributed equally to this work; Wang [Y]
CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the
research study; Wang CL, Zou CC, Hong F and Wu XM performed
the research; Xue JZ and Lu JR contributed new reagents and

	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and Wang CL, Liang L and Fu JF wrote the manuscript. All authors have read and approve the final manuscript."	
8	The 'Supported by' statement describes the source(s) of financial support and includes the corresponding identification number(s) and program ID(s) if available, and contains no spelling errors.	[N]
9	The 'Corresponding author' passage provides the corresponding author's full first and family (sur)names, abbreviated title (e.g., MD, PhD), affiliated institute's name and complete postal address (including zip code) and e-mail (written in all lowercase), and contains no spelling errors.	[Y]
10	The Manuscript Tracking information (<i>i.e.</i> , Received, Peer review started, First decision, Revised, Accepted, Article in press, and Published online) are provided along with the corresponding editor and date for each item, and contain no spelling errors.	[Y]
11	The Abstract section is formatted according to the article-specific style (structured vs unstructured) and word count thresholds, as follows: Commentary, Frontier, Diagnostic Advances, Medical Ethics, Minireview, Review, Therapeutics Advances, and Topic Highlight: Non-structured abstract that is no less than 200 words. Field of Vision, Case Report and Letter to the Editor: Non-structured abstract that is no less than 150 words. Research articles: Structured abstract with subsections for AIM (no more than 20 words); METHODS (no less than 80 words); RESULTS (no less than 120 words); and CONCLUSION (no more than 26	[Y]

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	. 1
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	. 1
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. <i>World J</i>	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
	study that outlines the most innovative and important arguments	
14	and core contents of the paper and will serve to effectively attract	[Y]
	readers.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
	current (within the past 5 years) literature is cited, with the	
	exception of rare instances of seminal literature citations. All	
	technical terms and/or abbreviations are explained and/or defined,	
	with the full name of abbreviations given upon first appearance in	
15	the text and the abbreviation presented in parentheses [i.e.,	[Y]
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	by the author(s). When weaknesses of previous studies are	
	described in the text to highlight the innovations related to the	
	current study, the information is presented carefully.	
	carrent stady, the information is presented carefully.

The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study. The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (i.e., chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear. Statistical symbols are accurate. Statistical significance is expressed as *P < 0.05, *P < 0.01 (P > 0.05 usually does not need to be denoted). If there are other series of P values, *P < 0.05 and *P < 0.01 are used, and a third series of P values is expressed as *P < 0.05 and *P < 0.01. Statistical data is expressed as mean ± SD or mean ± SE. The 'DISCUSSION' section (1) describes the main purpose and hypothesis of the study; (2) summarizes the most important results; (3) illustrates and explains the results (but does not simply repeat the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings. The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support (i.e., providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services (i.e., useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work.

21	The 'ARTICLE HIGHLIGHTS' section provides comments for	[N]
	original articles in accordance with the specified format.	. 1
	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	
	number should be placed following the name (i.e., "Pang et al"). For	
	citations where no author is indicated, a superscript number should	
22	be placed at the end of the sentence. Respective examples are: "Ma ^[1]	[Y]
	reported", "Pan et al ^[2-5] indicated"; "PCR has a high	
	sensitivity ^[6,9] ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	(e.g., Pan et $al^{[2-5]}$, please see reference [8]).	
	Journal references have been verified to ensure that there are no	
	duplicate references and that the PMID numbers are correct. For	
	references not yet included in PubMed: the name of Chinese	
	journals is spelled out using Chinese Pinyin, with the first letter of	
23	each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of	[Y]
	journals in other languages are listed according to indexing	
	information retrieved from Google. Book references are presented	
	with all the information relevant to the electronic version.	
24	The number of cited references is appropriate for the article type, as	
	follows:	
	Commentary: no less than 50;	
	Review: no less than 100;	[Y]
	Article: no less than 30/26;	
	Case Report and Letter to the Editor: no less than 1.	
L	Case Report and Letter to the Editor. No less than 1.	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

25	The ethics-related statements are provided in accordance with the	
	manuscript type (e.g., Manuscript NoInstitutional review board	[N]
	statement, Manuscript NoAnimal care and use statement, etc.).	
	The names of the peer reviewers and the scientific editor are present	
26	at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang	[Y]
	JL).	
	The order and numerical labeling of tables and figures is consistent	
	with their appearance and presentation in the text. Symbols in	
	tables $(e.g., +, -, \times, \div, *)$ correctly correspond to the definitions in the	
07	footnotes. Only one legend is provided for each multi-panel figure	D.O.
27	consisting of color graphs, black and white graphs, or line graphs	[Y]
	that depicts data of the same theme. For example: Figure 1	
	Pathological changes in atrophic gastritis tissue before and after	
	treatment. A:; B:; C:; D:; E:; F:	
	Split pictures include flow charts, line graphs, histograms, and	
28	graphs including text. Unsplit pictures include meta-analysis	[N]
	diagrams, PCR amplification curves, and survival curves.	
29	The author(s) highlighted the changes made to the manuscript	[]/1
29	according to the peer-reviewers' comments.	[Y]
30	The responses to the peer-reviewers' comments are consistent with	[V]
30	the changes made to the manuscript.	[Y]
	The revised manuscript is provided (file name: Manuscript	
	NoReview; e.g., 870- Review).	
31	The letter of peer-reviewers' comments is provided (file name:	[1/]
	Manuscript NoPeer-review(s); e.g., 870-Peer-review(s)).	[Y]
	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; e.g., 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
32	Approved grant application form(s) or funding agency copy of any	[Y]
	approval document(s) (file name: Manuscript NoGrant application	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

form(s)); (2) Biostatistics review certificate (file name: Manuscript NoBiostatistics statement); (3) Conflict-of-interest statement (file name: Manuscript NoConflict-of-interest statement); (4) Clinical trial registration statement (file name: Manuscript NoClinical trial	
name: Manuscript NoConflict-of-interest statement); (4) Clinical	
trial registration statement (file name: Manuscript NoClinical trial	
registration statement); (5) Institutional review board approval form	
or document (file name: Manuscript NoInstitutional review board	
statement); (6) Institutional animal care and use committee	
approval form or document (file name: Manuscript	
NoInstitutional animal care and use committee statement), and (7)	
Signed informed consent form(s) or document(s) (file name:	
Manuscript NoInformed consent statement).	
All authors signed the BPG Copyright license agreement form (file	
name: Manuscript NoCopyright license agreement; e.g.,	Y]
870-Copyright license agreement).	
The language certificate provided by authors who are non-native	
speakers of English meets the BPG requirements (file name:	Y]
Manuscript NoLanguage certificate; e.g., 870-Language certificate).	
The photos licensed in the Agreement for Use of Personal Photos	
are consistent with those in the paper (file name: Manuscript	*7
NoAgreement for use of personal photos; e.g., 870-Agreement for	1]
use of personal photos).	
This document (Checklist of Responsibilities for Scientific Editors)	
has been saved under the file name: manuscript NoScientific	(]
editor work list (e.g., 870-Scientific editor work list).	
A CrossCheck investigation (an effective tool for detecting unoriginal	
content, enabling our editors to preserve the journal's integrity and	
the authors' copyright) has been performed for the manuscript <i>via</i>	a
the website: http://www.ithenticate.com/. The results document	[]
contains the following information for the manuscript: "Name of	
journal", "Manuscript No.", "Columns", "Title" and "Author list".	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

	The Figure of the <i>CrossCheck</i> results is saved in JPEG format (.jpg) at					
	1440×680 pixel resolution. The PDF of the <i>CrossCheck</i> results has					
	been saved under the file name: manuscript No CrossCheck report					
	(e.g., 870-CrossCheck report). The Google searches have also been					
	performed to further ensure publication of original content.					
38	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	D/1				
36	1.5 line spacing.	[Y]				
	The primary responsibilities of our scientific editors include carefull	y checking the				
Responsibilities	entire manuscript and all accompanying materials for: (1) error	s in spelling,				
of scientific	grammar, punctuation and wording; (2) suitability of tables, figures, figure data and					
	legends; (3) accurate and appropriate presentation of symbols (e.g. +, -, ×, ÷, %, *) in					
editors	tables and figures; and (4) complete and comprehensive revision of the manuscript					
	according to the reviewers' comments.					
	Manuscript reception and registration→Initial review by scientific	e editor→Peer				
	review→End of peer review→First round of meeting evalu	ation→To be				
	accepted→Revision by the author(s)→Second round of meeting eval	uation→To be				
	accepted/revised/rejected→Final review by the Editor-in-Chief	(final quality				
Publication	control for academic content and language quality)→Final acceptance and charging					
process	of publication fee→Language editing→Production→Proofreading by scientific					
	editor→Proofreading by deputy editor→Final review by Editor-in-Chief→Release					
	of online open-access papers in electronic form on the BPG websi	te→Release of				
	online papers on PubMed Central→Delivery of high-quality PDF 1	reprints to the				
	author(s) \rightarrow End of the publication process.
