

Informed Consent Form

I have been explained that this study “**New objective scoring system to clinically assess fecal incontinence**” is being done after Ethical Approval from Adesh Medical College and Hospital, Shahbad 136143, Haryana. This study is about the perceived effect of different types of Fecal incontinence by the patients, laypersons and the surgeons.

I give my consent to use my data filled in the Proforma for the purpose of the above study.
