BSc, MGC

Research article titled: '**Clinical utilities and end-user experience of pharmacogenomics: 39 months of clinical implementation experience in an Australian hospital setting**'.

Signed Informed Consent Form(s) or Documents(s)

Participants of this study were invited clinicians and patients whose consent was implied when they completed the electronic surveys sent to their email address. The Patient Information Sheet and the Clinician Information Sheet that were imbedded into the online surveys have been included in this submission.

Yours sincerely,

Kathy Wu, MBBS, MMed, FRACP, HGSA (Clin Genet)
