**Supplementary Figure 1 Network topology analysis with different soft threshold power.** A: The scale-free fitting index as a function of the soft threshold power; B: The average connectivity as a function of the soft threshold power.

**Supplementary Figure 2 Module-sample association. Correlation thermography between modular feature genes and samples of Burkitt lymphoma.** Each row corresponds to a module feature, and the column corresponds to a sample. Each cell contains the correlation and the corresponding *P* value.

DOI: 10.5360/wjco.v0.i0.0000 Copyright ©The Author(s) 2023.

**Supplementary Figure 3** The Protein-Protein Interaction network ranked by the weighted degree in the yellow co-expression module. Nodes were ordered and sized according to their degree and edges were sized according to their weight.

## Supplementary Table 1 Gene Ontology analysis of the hub genes

Category	Term	Description	Count	P value
