

To whom it may concern,

This letter is to state that the manuscript (manuscript type: observational study) submitted to the World Journal of Gastroenterology with the title "**Inflammatory Bowel Diseases Patients Suffer from Significant Low Levels and Barriers to Physical Activity: Results from the "BE-FIT-IBD" Study**" and authors " Antonietta Gerarda Gravina, Raffaele Pellegrino, Tommaso Durante, Giovanna Palladino, Rossella D'Onofrio, Simone Mammone, Giusi Arboretto, Salvatore Auletta, Giuseppe Imperio, Andrea Ventura, Mario Romeo and Alessandro Federico" was reviewed (also for the revised version) by Dr Raffaele Pellegrino, MD, holding English level 3 proficiency of the Common European Framework of Reference.

This revision determined the basic language editing, including correcting grammar, punctuation, and syntax, performed normatively with the best efforts.

Kind regards,
