## SPECIFIC COMMENTS TO AUTHORS

Thanks to the researchers for their work. This study reported that a long-term prognosis of asymptomatic gallbladder stones in clinic without beds. There are several questions as follow: 1. In Table 3, the diameter of 10mm or less is related to more biliary complications. Please explain in more detail 2. During the observation, there was only gallbladder cancer. Please provide more information of this patient. 3. During all the observation, what is the interval between outpatient review?
