

Dear Editor:

We quite appreciate your favorite consideration and the reviewer's detailed comments. Now we have revised the manuscript " Intestinal flora: New Perspective of Type 2 Diabetes " exactly according to the expert's comments and found these comments are very helpful to us. In order to make the changes easily viewable for you and the reviewer, in the revised paper, we marked the revision with yellow color. We hope these revisions can make our paper more acceptable. The revisions were addressed point by point below.

**Revision list according to the comments from Reviewer 1**

**Response:** Thank you for your meticulous and responsible comments. We have made corrections to the language one by one to improve this manuscript.

**Revision list according to the comments from Company editor-in-chief**

**Question 1: it is recommended that the author supplement and improve the highlights of the latest cutting-edge research results, thereby further improving the content of the manuscript.**

**Response:** We sincerely appreciate the editor-in-chief for bringing up this important point. We have supplemented the highlights of the latest cutting-edge research results in reference [3]and [15].

Once again, thank you very much for your comments and suggestions. We are looking forward to hearing from you soon.

Sincerely,

Yan Liu PhD
