SPECIFIC COMMENTS TO AUTHORS

Very well researched and informatic article which comprehensively covers a relatively under reported Immune therapy related adverse effect. The articles is important becuase in absence of clear cut guidelines to diagnose and treat Immunotherapy related gastritis, this article provides extensive evidence for help make a clinician make informed decisions in managing this rare adverse effect. I came across minor spelling/grammer mistakes. Page 5 line should read "elevated crp was observed in several" instead of "elevated crp was observed in sevral". Page 8 line 1 "steroid begins tapering when...." would need correction in it's formation. Thank you.
