

Dear Yuan Qi, Scientific Editor, Editorial Office,

First of all, thank You for having accepted our work in WJG. We have made the corrections according to the reviewer's comments and to the Journal format. Here, You can find the attached files (manuscript, BPC copyright Assignment, Format for Answering reviewers). Even if we are non-native speakers of English, we have not provided language certificate by professional English language editing companies mentioned in 'The Revision Policies of BPG for Brief Article', because a member of the Italian Medicine Agency contributed to check the correct form of our article. We hope this could work. Thank You and king regards

Maddalena Zippi
