

ANSWERING REVIEWERS

April 20, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 10372-edited.docx).

Title: Late Intervention in an Asymptomatic Pediatric Patient with Anomalous Left Coronary Artery

Author: John C. Lam, Michael Giuffre, Kimberley A. Myers

Name of Journal: *World Journal of Cardiology*

ESPS Manuscript NO: 10372

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated. (Format for case report followed)
2. Revisions have been made according to the suggestions of:
 - a. Reviewer 02446684 with regards to spelling (e.g. esophageal vs. esophogeal)
 - b. Reviewer 02516081 with regards to addressing early diagnoses of ALCAPA in a real clinical setting.
 - c. Reviewer 00575396 with respect to outlining that CT angiography was utilized to make the final diagnosis.
3. Typesetting was corrected.

Thank you for your comments and those of the reviewers with our manuscript. We have incorporated their suggestions to the revised document and hope that this has strengthened our manuscript for your readers.

Sincerely yours,

John Lam
