2 Revision has been made according to the suggestions of the reviewer  
Responses to Reviewer#2

1) p3, line 9, the words "this data" should be corrected as "these data" or "the data" because the word "data" is plural.

It has been corrected.

2) p7, line 18, it would be better that "basic fibroblast growth factor (bFGF)" is rewritten as "fibroblast growth factor 2 (FGF2)" because "FGF2" is used later (p8, line 4) and FGF2 is the official symbol.

It has been corrected in the main document and in Fig. 3.

3) p7, line 23, the words "per se" should be written in italic because the words "per se" are Latin.

It has been corrected.

4) In Fig. 1B, it seems that P values are smaller than 0.01 or even 0.001. If so, please rewrite P values as in the cases of Fig. 1A or Fig. 2A using \* $p < 0.05$ , \*\* $p < 0.01$  and so on.

We checked our data again and modified the figure as requested. Figure legend has also been modified. (page 36, bottom part)

Responses to Reviewer#3

Minor comments Few grammatical mistakes are found. Please revise these sentences: "their efficacy seems to be without doubt" "seems to be reliable"

It has been corrected. (page 5, bottom)

Thank you again for publishing our manuscript in the *World Journal of Clinical Urology*.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Etsu Suzuki". The signature is written in a cursive, flowing style with a horizontal line underneath the name.
