

Format for ANSWERING REVIEWERS

July 23, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 10546-edited.doc).

Title: Acute diarrhea and metabolic acidosis caused by the tuberculous vesico-rectal fistula

Author: Xiu-Qing Wei, Yan Zou, Zhi-E Wu, Kodjo-Kunale Abassa, Wei Mao, Jin Tao, Zhuang Kang, Zhuo-Fu Wen, Bin Wu

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 10546

The manuscript has been improved according to the suggestions of reviewers:
1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer

(1) It is difficult to argue that acidosis is a sine qua none feature here, thus I believe this should be omitted from the title and less highlighted: Yes, acidosis is really not a sine qua none feature, however, we just want to emphasize that acidosis may occur and we want to draw more attentions about it.

(2) The report could be improved by demonstrating histological features: We are sorry that biopsy was only done through colonic endoscopy, and no specific characters were showed.

(3) I have no major criticism, apart from a seroius and thorough review of the English form, since the text is sometimes difficult to follow ans one loses the meaning. The paper can also be shortened: We have reuested an English language expert to help us and tried to trim it down. Thank you for your advices!

3 References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in black ink that reads 'Xiuqing Wei'.
