Fang-Fang Ji, Science Editor, Editorial Office,

World Journal Of Nephrology

Baishideng Publishing Group Inc

**Response to all the reviewers' comments and queries and editorial requirements -
Manuscript revision NO: 10668**

We have responded to all the reviewers' comments and queries. The manuscript has been shortened with some fuzzy figures deleted. The revised submission has each individual image as a separate PNG file.

All the required editorial changes have been made and all the new additions appear in red font. The 100-word core tip has been added after the abstract. All the available PMID and DOI labels for all the relevant references have been updated and again all the new additions appear in red.

We look forward to the publication of our manuscript in the World Journal of Nephrology soon and it remains our hope that this article will raise vigorous academic discussion among the readers of the journal and will help raise the standing of the World Journal of Medicine among nephrology journals around the world as this article when published, would soon become a very frequently cited reference.

Macaulay Onuigbo MD MSc FWACP FASN MBA, For the Authors
