Dear Editor,

Please find enclosed the edited manuscript in Word format (10836-review.docx).

Title: AUTOIMMUNE DIABETES RECURRENCE SHOULD BE ROUTINELY MONITORED AFTER PANCREAS TRANSPLANTATION

Author: La Salete Martins

Name of Journal: *World Journal of Transplantation*

ESPS Manuscript NO: 10836

The manuscript has been improved according to the suggestions of reviewers:

- 1 Core Tip was included
2. author contribution was included
3. References are now within square brackets
- 4 Although none revision of the main body of the article was required, one of reviewers made a suggestion: if the renal function was not different in both groups (positive and negative for pancreatic autoantibodies), and it is the case, to include a sentence with this observation, which gives consistency to the argument that decline in glycemic control was not due to alloimmunity. It was included – it is now in page 5, before conclusions
- 5 References - the PMID and DOI was added.

Thank you again for publishing the manuscript in the *World Journal Transplantation*.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'La Salete'.
