Re: Manuscript No: 10913

Dear Sirs,

Further to your request to provide a language certificate confirming that our manuscript has been edited by an English language editing company, we would hereby inform you that the manuscript in question was proof-read and edited by Ms Olga Shrestha, BA, certified translator for English language with long-standing experience in medical translation. We have been using her services for many years now and have never had any of our papers rejected due to language issues.

Please find enclosed Ms. Shrestha's confirmation of language editing and proofs of her competence (a copy of university degree in English translation, a copy of Cambridge Certificate of Proficiency in English and a copy of the licence for translation from and into English issued by the Association of Scientific and Technical Translators of Slovenia).

We look forward to receiving your affirmative reply that the submitted confirmation of language editing and proofs of the editor's competence comply with your request and that our manuscript is thus considered suitable for publication in your journal.

With kind regards,

Asst. Miroslav Vujasinovič, MD, MSc
