The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated

2. Revision has been made according to the suggestions of the reviewer

We deeply appreciate reviewers for their elaborate comments on our manuscript. We tried our best to mend and ameliorate our manuscript sincerely following reviewer's precious advices.

(1) It is unclear why this paper has been submitted to a gastroenterology journal as the target audience is primary care physicians.

→ We appreciate your comment. However, all authors of this manuscript were multidisciplinary team including a specialized gastroenterologist. Also, we think that this manuscript is helpful to new beginners as well as primary care physicians due to detailed explanations and figures. Other reviewers agree with our elaborate contents of colonoscopy training. We tried our best to clarify this point in our manuscript. Additionally, we revised our manuscript extensively to make it more clear, logical, and concise.

3. References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Peter Laszlo LAKATOS, MD, PhD
