1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer

- (1) Thanks for the comments from reviewer 742250. We think although this is only one case, we report a rare tumor of pancreas with 10 year follow-up. And we also review the literatures in English to summarize the clinical characteristics of undifferentiated carcinoma with osteoclast-like giant cells of the pancreas. So we would like to ask for consideration of reviewers for this manuscript to be published in WJG.
- (2) As the reviewer 13033 suggested, we shorten the discussion to make this part concise.
- (3) We present our thanks to the evaluation of reviewer 28169. We carefully modify and correct the language and format of the manuscript.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
