Title: *Helicobacter heilmannii* sensu lato: an overview of the infection in humans

Author: Mario Bento-Miranda, Ceu Figueiredo

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 11333

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated and the core tip has been included.

2 Revision has been made according to the suggestions of the reviewers and changes have been highlighted in the revised manuscript.

Reviewer 00068250

(1) We have reformulated this section according to the reviewer's comments. We would like to emphasize that most of the published studies are indeed case reports. Therefore, we have focused mainly on the studies that address the histopathological aspects of *H. heilmannii* s.l. infection, which in fact are those that contain the largest series of patients.

(2) We have changed this sentence.

(3) We have had the manuscript reviewed by a colleague whose native language is English, and made slight grammatical and punctuation changes where required.

Reviewer 00068574

(1) We have included the references suggested by the reviewer.

3 References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
