**RE: The ability of bone graft substitutes to support the osteoprogenitor cells: an in-vitro study.**

Dear Editor,

This letter is to confirm that I have been qualified from the University of Leeds to undertake biostatistical analysis. I have assessed the raw data and I have undertaken the statistical analysis. In my view all are valid and correct.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Pountos', written in a cursive style.
