Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 11877-edited).

Title: ROLE OF VAPTANS IN THE MANAGEMENT OF HYDROELECTROLYTIC IMBALANCE IN LIVER CIRRHOSIS

Authors: Antonio Facciorusso, Annabianca Amoruso, Viviana Neve, Matteo Antonino, Valentina Del Prete, Michele Barone

Name of Journal: *World Journal of Hepatology*

ESPS Manuscript NO: 11877

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(2860895): Figure 3 has been consistently changed in order to not replicate a scheme already published before.

(742516): The reviewer had no claims to do

(2444774): The summary table suggested by the reviewer has been added to the text (Table 1). The safety concern of tolvaptan and the prognostic implication of reversing hyponatremia in patients with liver cirrhosis had been widely addressed, following reviewers's suggestions.

(2861134): The reviewer did not ask any revision.

(70481): The reviewer did not ask any revision.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Hepatology*.

Sincerely yours,

Michele BARONE, MD, PhD
