

Ghent, August 14, 2014

Sir,

Name of journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 12317

Columns: MINIREVIEW

Extent of surgery in cancer of the colon: Is more better?

Willaert W *et al.* Extent of surgery in cancer of the colon

We have reviewed our paper according to the suggestions and remarks of the reviewers and editor.

- The format of the text and references has been updated according to WJG's guidance
- The concept of CME was explained in more detail
- The concept of the lymph node ratio was added to the text
- The most recent references were added to the paper.

Please find the revised manuscript attached; the revised text is indicated in red.

Yours,

Wim P Ceelen, MD, PhD, FACS
